ValuePlus ERP — Feature Acceptance Checklist

Check every point with the client and tick OK or Issue · 127 points in 21 sections · Live site: valuplus.shineinfosolutions.in · Prepared 3 November 2026

TESTED BY (DEVELOPER)	CLIENT / STORE REPRESENTATIVE	DATE OF TESTING	APP VERSION / PHONE USED

How to use this checklist

1. Log in with the role shown on the right of each section heading (on the live site or the Android app).
2. Do what the **What to check** column says and compare with **Expected result**.
3. Tick **OK** when it works exactly as written, or **Issue** when anything differs, and write what happened in **Remarks**.
4. Points marked ⚠ are already known issues (listed in BUGS.md, 33 points). Show them to the client as known and note the agreed fix date.

☐ OK = works as expected · ☐ Issue = does not work / differs (write details in Remarks)

1. Login, roles and security

Test as: Each role

No.	What to check	Expected result	OK	Issue	Remarks
1.1	Open the live site and log in with each role (Admin, Manager, Cashier, Salesman, Accounts, HR, Godown, Delivery, Supplier).	Each role lands on its own panel (/admin, /cashier, /salesman ...) and sees only its own menu.	☐	☐	
1.2	Open another role's panel address by hand (e.g. salesman opens /admin).	Redirected to their own panel.	☐	☐	
1.3	Log in with a wrong password.	Refused with a clear message. ⚠ BUGS 1.1: the shared password 123456 and the default role passwords still log in. Must be removed before handover.	☐	☐	
1.4	Settings → Security PIN: set your own PIN.	PIN saved; asked later for cancel / delete / edit.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
1.5	Log out on a shared phone, log in as another user.	Second user sees only their own data. ⚠ BUGS 1.13: offline data of the previous user can remain.	☐	☐	

2. Dashboard — Admin / Manager / Cashier

Test as: Admin, Manager, Cashier

No.	What to check	Expected result	OK	Issue	Remarks
2.1	Change the date filter (Today, Yesterday, 7 days, Month, Custom).	All cards and charts change to that period. ⚠ BUGS 5.1: revenue still counts cancelled bills and credit notes.	☐	☐	
2.2	Open the stock view: Brand → Category → Products.	Counts and quantities match at every level.	☐	☐	
2.3	Lead Pipeline card: use the Staff filter and the date filter.	Tiles, tabs and list show only that salesperson's leads; counts beside each name.	☐	☐	
2.4	Lead Pipeline: change a lead status; press New Lead.	Status saves; new lead form opens and saves.	☐	☐	
2.5	Check cards: Bills from salesmen, Cash Available, Stock order requests, Outside the store now, Cash with the Cashier.	Each shows current figures; clicking opens the right page.	☐	☐	
2.6	Audit button under Profit & Loss.	Asks Mobile / All products and opens that audit.	☐	☐	
2.7	Manager / Cashier / Accounts: Check-in card at the top.	Check in / out works from the dashboard.	☐	☐	

3. Dashboard — Salesman (phone)

Test as: Salesman

No.	What to check	Expected result	OK	Issue	Remarks
3.1	Open the dashboard on a phone.	Name, Check In button, today's follow-ups with Call, tiles (sales, revenue, leads, tasks).	☐	☐	
3.2	Tap Call on a follow-up.	Phone dialer opens; the call is recorded on the lead.	☐	☐	
3.3	Tap the Incentive card.	Earned / Received / To receive and every bill with incentive, Onsitego part, payouts.	☐	☐	
3.4	Check period tabs (Today / Week / Month).	Own invoices and figures change with the period. ⚠ BUGS 3.7–3.8: period incentive shows double; cancelled bills counted.	☐	☐	
3.5	Quick actions: New Estimate, New Bill, New Lead, Stock, New Stock.	Each opens the right form / page directly.	☐	☐	
3.6	Target progress on the dashboard.	Shows units and ₹ progress of assigned targets.	☐	☐	

4. Tax Invoice — billing form

Test as: Cashier, Admin

No.	What to check	Expected result	OK	Issue	Remarks
4.1	New bill: enter customer mobile of an existing customer.	Name, address, GSTIN fill automatically.	☐	☐	
4.2	New bill for a new mobile.	Customer is created when the bill is saved. ⚠ BUGS 2.8: once codes pass CUST-999 the new customer may not link.	☐	☐	
4.3	Choose billing company (Value Plus / Ashoka) and warehouse.	Bill number series and stock follow the choice.	☐	☐	
4.4	Add a product by name / VP code; pick a serial / IMEI.	Only available serials are offered; stock shown.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
4.5	Change qty, rate (GST-inclusive), discount, GST %.	Taxable, CGST/SGST (or IGST), total and round-off are correct.	☐	☐	
4.6	Leave Sales Executive empty and save.	Refused: Sales Executive is compulsory. Auto-filled when the customer has a lead.	☐	☐	
4.7	Pay by Cash, UPI, Card, Due, Split.	Paid / balance correct; Due goes to the customer's khata.	☐	☐	
4.8	Pay by Finance (Bajaj / HDB / IDFC / TVS / Kotak) with down payment and DO; upload DO PDF.	Finance DO created; DO attachment opens later from Finance Ledger.	☐	☐	
4.9	Bajaj Finance bill without vehicle number.	Refused until a vehicle / driver is chosen.	☐	☐	
4.10	Price 1% or more below selling price.	Discount approval asked: 1–10% Manager, over 10% Admin; bill waits and saves after approval.	☐	☐	
4.11	Price below the floor / locked minimum price.	PIN asked; salesman can never go below a locked price.	☐	☐	
4.12	Customer with an advance or earlier payment: open a bill.	"Payment Already Received" / advance shown with a tick box; amount deducted when ticked. ⚠ BUGS 2.2: a partly used advance does not show.	☐	☐	
4.13	Extended warranty: choose provider, plan, years, amount.	Added to the bill total and printed. ⚠ BUGS 2.14: "Custom Provider & Price" quick plan does not set the amount.	☐	☐	
4.14	Onsitego (after the PDF is uploaded): add an AC / TV / fridge.	Onsitego plans for that product's price slab appear (EW / ADLD / AMC), with price and VP Code; one tap adds a plan. ⚠ BUGS 2.13: plan stays if price changes later.	☐	☐	
4.15	Delivery: counter vs later delivery; expected date; driver drop-down.	Driver name, phone, vehicle fill in; delivery challan made.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
4.16	Bill date field.	Always today; cannot be changed.	☐	☐	
4.17	Save the bill; check stock, serial, customer balance, lead, target.	Stock down, serial SOLD, balance updated, lead converted, target moved, incentive recorded. ⚠ BUGS 2.7: if a challan was ever deleted, later steps can be skipped.	☐	☐	
4.18	Print the invoice (A4) and share on WhatsApp.	Correct GST invoice; WhatsApp opens with the bill.	☐	☐	

5. Tax Invoices — list, edit, cancel

Test as: Cashier, Manager, Admin

No.	What to check	Expected result	OK	Issue	Remarks
5.1	Search, date filter, export Excel / PDF.	Correct bills; export downloads.	☐	☐	
5.2	Check Paid / Balance columns of a bill with an advance.	Advance shown separately; balance correct. ⚠ BUGS 2.6: balance wrong after collecting due on such a bill.	☐	☐	
5.3	Edit a saved bill (Admin): change qty / product; PIN + reason.	Bill, stock, serials, balance, receipt updated; audit log kept.	☐	☐	
5.4	Edit a saved bill as Manager.	Request goes to Admin with Before → After; applies only on approval.	☐	☐	
5.5	Cancel / delete a bill with PIN + reason.	Bill cancelled / archived with who and why; stock back. ⚠ BUGS 2.4: advance not given back, serial stays SOLD.	☐	☐	
5.6	Delivered later-delivery bill.	"Delivered <date>" badge and delivery photos visible.	☐	☐	

6. Receive Payment (Counter)

Test as: Cashier

No.	What to check	Expected result	OK	Issue	Remarks
6.1	Record Payment: search customer by name / mobile.	Customer found with balance. ⚠ BUGS 2.1: a customer with an advance switches to "Refund" by itself. Check the type before saving.	☐	☐	
6.2	Add a new customer from the payment form.	Customer saved with all details, then payment recorded.	☐	☐	
6.3	Save without a reason.	Refused: reason is compulsory.	☐	☐	
6.4	Save with a reason.	Receipt opens: number, customer, reason, mode, received by, amount in words, advance left / due / settled.	☐	☐	
6.5	Print Receipt; WhatsApp.	Only the receipt prints; WhatsApp opens with the text.	☐	☐	
6.6	Receipt button on an old payment.	Receipt opens for that payment.	☐	☐	
6.7	Next bill for that customer.	Payment shown as "Payment Already Received" and deducted.	☐	☐	
6.8	Edit / delete a payment (Admin with PIN; Manager → approval).	Works as per rule; logged.	☐	☐	

7. Customer Advances (Advance Booking)

Test as: Cashier

No.	What to check	Expected result	OK	Issue	Remarks
7.1	New advance without a reason.	Refused: reason is compulsory.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
7.2	New advance with reason.	Receipt ADV-YYYY-#### opens with reason, received by, India time. ⚠ BUGS 2.9: for a brand-new customer an error can appear after saving; do not save twice.	☐	☐	
7.3	Print Receipt and WhatsApp.	Only the receipt prints; text includes the reason.	☐	☐	
7.4	Bill for that mobile.	Advance shown and deducted.	☐	☐	
7.5	Refund an advance.	Status Refunded; note saved. ⚠ BUGS 1.14: any login can refund, no PIN / log.	☐	☐	

8. Estimates and salesman Bills

Test as: Salesman, Cashier

No.	What to check	Expected result	OK	Issue	Remarks
8.1	Salesman: New Estimate; print / WhatsApp.	Quotation saved and shared, no approval needed.	☐	☐	
8.2	Salesman: New Bill for a customer buying now.	Cashier / Manager / Admin get a popup and phone notification.	☐	☐	
8.3	Cashier: Make Invoice from the salesman's bill.	Invoice made under the salesman's name; salesman notified. ⚠ BUGS 2.5: two people pressing Make Invoice makes two invoices.	☐	☐	
8.4	Reject a salesman's bill with reason.	Salesman sees the reason.	☐	☐	
8.5	Price below locked minimum on an estimate.	Needs Price Unlock PIN (not possible for a salesman).	☐	☐	

9. Other sales pages

Test as: Cashier, Manager, Godown

No.	What to check	Expected result	OK	Issue	Remarks
9.1	Credit Notes: create a sales return.	Credit note saved and printable.	☐	☐	
9.2	GIDA Warehouse Order: upload today's supplier stock sheet.	Products listed with NEW / +N; salesmen notified.	☐	☐	
9.3	Salesman: order from GIDA list; Admin approves and sends on WhatsApp.	Request SO-YYYY-#### moves Pending → Approved → Sent.	☐	☐	
9.4	Order Dispatch: out for delivery → delivered.	Status moves; photos visible. ⚠ BUGS 4.8: cancelled bills still listed.	☐	☐	
9.5	Delivery Challan tabs (Challans / Pending / Delivered).	Correct lists.	☐	☐	
9.6	E-Way Bill: prepare for a bill over ₹50,000.	Details saved.	☐	☐	

10. Purchase & Expenses

Test as: Cashier, Godown, Admin

No.	What to check	Expected result	OK	Issue	Remarks
10.1	Purchase Entry: manual bill with products and serials.	Stock up per warehouse; supplier balance up; serials saved.	☐	☐	
10.2	Purchase Entry: import a supplier PDF / Excel invoice.	Products matched by VP code / model; serials read; supplier details filled.	☐	☐	
10.3	Add Serial Numbers to a saved bill; Replace option.	Serials saved / replaced; Admin can correct a line rate.	☐	☐	
10.4	Correct a purchase bill (date / due date / GSTIN) with PIN.	Saved (Manager → Admin approval).	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
10.5	Cancel / delete a purchase bill.	Stock and supplier balance reversed. ⚠ BUGS 4.3: its serials stay available.	☐	☐	
10.6	Purchase Orders, Debit Notes, Low Stock.	Create / list works; low-stock items shown.	☐	☐	
10.7	Expenses: add an expense.	Shows in cash register and P&L.	☐	☐	

11. Products & Masters

Test as: Admin, Manager

No.	What to check	Expected result	OK	Issue	Remarks
11.1	Items: add / edit a product (VP code, prices, VSP, GST, incentive).	Saved; Manager's edit waits for Admin.	☐	☐	
11.2	Items: open Product Ledger.	Every purchase and sale with profit; invoice links open.	☐	☐	
11.3	Price-sheet (V+NLC / VSP) upload; Sample sheet.	Prices updated; missing products listed.	☐	☐	
11.4	Stock Report: brand / product type / stock filter, search, export.	Correct products and stock value. ⚠ BUGS 4.6: location filter uses where the item was created.	☐	☐	
11.5	Categories, Brands (Bill Now), Units, Warehouses, Customers, Suppliers.	Add / edit / list works.	☐	☐	

12. Finance & EMI Hub

Test as: Accounts, Admin

No.	What to check	Expected result	OK	Issue	Remarks
12.1	Customer Dues & Overdue: send WhatsApp reminder; collect.	Reminder opens; payment recorded.	☐	☐	
12.2	Monthly EMI Cycles.	Schedules and payments shown.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
12.3	Finance Ledger: open DO Attachment (PDF).	PDF opens (it used to fail).	☐	☐	
12.4	Bank NACH & Payouts: enter bank and UTR.	Saved; reminder stops.	☐	☐	

13. Suppliers & Ledgers

Test as: Accounts, Admin

No.	What to check	Expected result	OK	Issue	Remarks
13.1	All Ledgers: open a supplier statement; print / export.	Purchases, payments, balance correct.	☐	☐	
13.2	Supplier Payments; Outstanding & Ageing.	Payment recorded; ageing buckets correct. ⚠ BUGS 4.7: supplier names with brackets may duplicate.	☐	☐	

14. Godown & Logistics

Test as: Godown, Manager

No.	What to check	Expected result	OK	Issue	Remarks
14.1	Godown Hub; Stock Flow (In / Out).	All movements by date.	☐	☐	
14.2	Stock Transfer: create → receive.	Stock leaves source, arrives at destination. ⚠ BUGS 4.1: deleting a transfer loses the stock.	☐	☐	
14.3	Live Audit (All / Mobile): several people count; finalise.	Counts saved live with who counted; history with differences. ⚠ BUGS 4.5: expected stock uses all locations.	☐	☐	
14.4	Audit: click a product.	Full product history opens.	☐	☐	

15. Delivery Boy Portal

Test as: Delivery boy

No.	What to check	Expected result	OK	Issue	Remarks
15.1	My Assigned Deliveries: expected date shown.	Overdue in red, today amber.	☐	☐	
15.2	Out for delivery → customer's OTP → Delivered with 3 camera photos.	Gallery not allowed; 3 photos compulsory; Admin can view them. ⚠ BUGS 1.5–1.6: OTP visible on tracking page and delivery screen.	☐	☐	
15.3	My Salary & Advances; My Profile & Vehicle.	Own records shown.	☐	☐	

16. Leads, CRM and On Site Go

Test as: Salesman, Cashier, Admin

No.	What to check	Expected result	OK	Issue	Remarks
16.1	Sales Leads: add lead, follow-up with note and next date, Call.	Saved; every call recorded with who / when; history cannot be edited.	☐	☐	
16.2	Salesman sees only own leads; Admin uses Staff filter and Staff Activity.	Correct per person and per day.	☐	☐	
16.3	Bill a customer who has a lead.	Lead becomes Converted with the invoice number.	☐	☐	
16.4	Customer Queries and Complaints.	Add / update / close works.	☐	☐	
16.5	Admin: upload Onsitego price list PDF in Documents → On Site Go.	Message: "153 Onsitego plans read".	☐	☐	
16.6	Salesman / Cashier / Godown: open On Site Go (Plans).	Folder opens; PDF viewable; cannot upload.	☐	☐	

17. Staff & Attendance

Test as: Salesman, Manager, HR, Admin

No.	What to check	Expected result	OK	Issue	Remarks
17.1	Check in outside the store.	Refused (must be within 100 m). ⚠ BUGS 3.4: godown staff cannot check in at the godown.	☐	☐	
17.2	Check in inside the store with selfie.	Checked in; late minutes recorded after 10:00 + grace.	☐	☐	
17.3	Do not check out.	Checked out automatically at 9:00 PM. ⚠ BUGS 3.2–3.3: auto check-out can turn Half-Day into Present.	☐	☐	
17.4	Late alert.	Manager / Admin get one alert per late person (10:00–12:00).	☐	☐	
17.5	Geofence: with app open, walk more than 200 m away, come back.	"Outside the store now" card shows the person; away time on Directory / member page / attendance.	☐	☐	
17.6	Stay outside 15+ minutes (app open).	Manager and Admin get an alert.	☐	☐	
17.7	Leave & Breaks: apply Weekly Off / Leave / Emergency / Break; approve.	Popup to approver; approved history; break timer and "I am back". ⚠ BUGS 3.11: a forgotten "I am back" alerts every day.	☐	☐	
17.8	Tasks: give one task to several people.	Each person gets their own copy and notification.	☐	☐	
17.9	Sales target task: make a matching bill.	Progress (units / ₹) moves automatically. ⚠ BUGS 3.5: people with the same first name both get progress.	☐	☐	
17.10	Staff Directory, member page, Leaderboard, Salary.	Figures per person; Staff filter works on each page.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
17.11	Sales Incentives: Onsitego plan sold on a bill.	10% of the plan amount added to that bill's salesman.	☐	☐	
17.12	Request salary Advance.	Should need approval. ⚠ BUGS 3.1: added at once without approval.	☐	☐	

18. GST & Financial Reports

Test as: Accounts, Admin

No.	What to check	Expected result	OK	Issue	Remarks
18.1	Profit & Loss: Today / period; product-wise profit; GST box; Print.	Figures shown; A4 print. ⚠ BUGS 5.4–5.5: credit notes and GST-on-margin; owner to confirm the basis.	☐	☐	
18.2	GST Reports: GSTR-1 (B2B / B2C), GSTR-2, GSTR-3B; Excel.	Correct month figures. ⚠ BUGS 5.3: cancelled bills included.	☐	☐	
18.3	HSN Summary: month; drill-down; 2-sheet Excel.	Matches GSTR-1 B2C / B2B totals.	☐	☐	
18.4	Sales Out Report; All Reports.	Lists and totals shown. ⚠ BUGS 5.2: cancelled bills included.	☐	☐	

19. Documents

Test as: Admin, Manager, Accounts

No.	What to check	Expected result	OK	Issue	Remarks
19.1	Upload a PDF / photo with date and narration into a folder.	Saved; opens through the app.	☐	☐	
19.2	Create / rename / delete (empty) folder; move a document.	Works per role; On Site Go folder cannot be renamed or deleted.	☐	☐	

20. Settings, Cash and Approvals

Test as: Admin, Manager, Cashier

No.	What to check	Expected result	OK	Issue	Remarks
20.1	Store Activity Approvals: approve / reject a Manager request.	Before → After shown; change applies only on approval.	☐	☐	
20.2	Users & Staff KYC: add user, role, salary, vehicle (delivery).	Saved (Admin only). ⚠ BUGS 1.2: any logged-in user can currently add users.	☐	☐	
20.3	Role Permissions, Price Locks, Price Unlock PIN, Company Profile.	Saved and applied.	☐	☐	
20.4	Cash Register: Set actual cash; daily in / out.	Balance correct. ⚠ BUGS 2.12: advance cash not in the register.	☐	☐	
20.5	Daily Cash Audit (day-close) with notes count.	Sales / cash pages lock until the previous day is closed. ⚠ BUGS 5.6: day-close date uses UTC before 5:30 AM.	☐	☐	
20.6	Admin Cash Book: cashier handover confirmed by Admin; deposit.	Cash with Admin and deposits correct.	☐	☐	

21. Across the whole app

Test as: Any

No.	What to check	Expected result	OK	Issue	Remarks
21.1	Live updates: save a bill on one device with another device open.	The other screen updates within a second, without refresh.	☐	☐	
21.2	Phone notifications: turn on alerts from the bell; send a test; close the app.	Notification arrives with sound.	☐	☐	
21.3	Unread notification popup.	Shows once per device; one popup at a time.	☐	☐	
21.4	Phone layout: bottom bar, Menu tiles, card lists.	Usable on a phone without sideways scrolling.	☐	☐	

No.	What to check	Expected result	OK	Issue	Remarks
21.5	Offline billing: make a bill without internet, reconnect.	Bill syncs with its own date.	☐	☐	
21.6	Android app (APK): install and open.	Opens the live site full-screen; notifications work.	☐	☐
